**Material Safety Data Sheet**

**GardenTech ROOTONE Brand F Rooting Hormone**  
This product is used by Homeowners and Professionals  
Product Code(s): 7800, 7801

**SECTION 1 - PRODUCT INFORMATION**

Information: 800-969-7200

Poison Control Center Atlanta: 1-800-282-5846

EPA Reg. Number: 264-499-71004

Chemical Name: 1-Naphthaleneacetamide; 2-methyl-1-naphthalene acetic acid & acetamide; Indol-e-3-butyric acid; and Thiram.

Trade Names: NA; ROOTONE

\*\*\*\*\*

**SECTION 2 - COMPOSITION**

| <u>Component</u>                            | <u>Percentage</u> | <u>ACGIH Exposure Limit</u> | <u>OSHA Exposure Limit</u> |
|---|-------------------|-----------------------------|----------------------------|
| 1- Naphthaleneacetamide [86-86-2]           | 0.067%            | TLV - N/E                   | PEL - N/E                  |
| 2-methyl-1-naphthaleneacetic acid [85-08-5] | 0.033%            | TLV - N/E                   | PEL - N/E                  |
| 2-methyl-1-naphthaleneacetamide [85-07-4]   | 0.013%            | TLV - N/E                   | PEL - N/E                  |
| Indole-3-butyric acid [133-32-4]            | 0.057%            | TLV - N/E                   | PEL - N/E                  |
| Thiram [137-26-8]                           | 4.0000%           | TLV - 5 mg/m3               | PEL - 5 mg/m3              |
| Talc  | 95.830%           | TLV - 2 mg/m3 (dust)        | PEL - 20 mppcf             |

\*\*\*\*\*

**SECTION 3 - HEALTH HAZARD DATA**

**EMERGENCY OVERVIEW**

An off-white odorless dust that:

- \* Is harmful if swallowed, inhaled, or absorbed through the skin.
- \* Causes eye irritation.

**ROUTE(S) OF ENTRY:** Ingestion, Inhalation and skin contact.

**EYES:** Causes eye irritation, redness and tearing.

**SKIN:** Prolonged contact can cause chronic dermatitis. Low acute dermal toxicity.

**INGESTION:** Low acute oral toxicity.

**INHALATION:** Harmful if inhaled. Dusts may cause upper respiratory tract irritation, coughing, and wheezing.

**MEDICAL CONDITIONS POSSIBLY AGGRAVATED BY EXPOSURE:** Inhalation of product may aggravate existing chronic respiratory problems such as asthma, emphysema or bronchitis. Skin contact may aggravate existing skin disease. Adverse effects may arise if taking alcohol.

**CHRONIC EFFECTS:** This product contains ingredients that are considered to be probable or suspected human carcinogens (see Section 11 – Chronic). Prolonged contact can cause chronic dermatitis.

\*\*\*\*\*

**SECTION 4 - FIRST AID**

**IF SWALLOWED:** If victim is conscious and alert, give 2-3 glasses of water to drink and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. Seek immediate medical attention. Do not leave victim unattended. Vomiting may occur spontaneously. To prevent aspiration of swallowed product, lay victim on side with head lower than waist. If vomiting occurs and the victim is conscious, give water to further dilute the chemical

**IF IN EYES:** Hold eyelids open and flush with a steady, gentle stream of water for at least 15 minutes. Seek medical attention.

**IF ON SKIN:** In case of contact, wash with plenty of soap and water. Seek medical attention if irritation develops or persists.

**IF INHALED:** Remove from immediate source of exposure and assure that the victim is breathing. If breathing is difficult, administer oxygen, if available. If victim is not breathing, administer CPR (cardio-pulmonary resuscitation). Seek medical attention.

**NOTE TO PHYSICIAN:** All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

This product is used by Homeowners and Professionals  
Product Code(s): 7800, 7801

**SECTION 5 - FIRE & EXPLOSION HAZARDS**

**FLASH POINT:** Not Applicable

**EXTINGUISHING MEDIA:** Not combustible. Use extinguishing method suitable for surrounding fire.

**SPECIAL FIRE FIGHTING PROCEDURES:** Firefighters should wear NIOSH/MSHA-approved self-contained breathing apparatus and full protective clothing. Dike area to prevent run-off and contamination of water sources. Dispose of fire control water later.

**UNUSUAL FIRE OR EXPLOSION HAZARDS:** Under fire conditions, toxic, corrosive fumes are emitted.

**HAZARDOUS DECOMPOSITION MATERIALS (Under Fire Conditions):** Nitrogen oxides, Sulfur oxides, and Carbon oxides

\*\*\*\*\*

**SECTION 6 - SPILL AND LEAK PROCEDURES**

**EVACUATION PROCEDURES AND SAFETY:** Wear appropriate protective gear for the situation. See Personal Protection information in Section 8.

**CLEANUP AND DISPOSAL OF SPILL:** Scrape up and place in appropriate closed container (see Section 7: Handling and Storage). Collect washings for disposal. Decontaminate tools and equipment following cleanup. Avoid creation of dusty conditions.

**ENVIRONMENTAL AND REGULATORY REPORTING:** If spilled on ground, the affected area should be scraped clean and placed in an appropriate container for disposal. Do not flush to drain. Prevent material from entering public sewer system or any waterways. Dispose of as a hazardous waste.

\*\*\*\*\*

**SECTION 7 - STORAGE & HANDLING**

**Minimum/Maximum Storage Temperatures:** Not available

**Storage:** Store in an area that is away from food, feedstuffs, fertilizers and seed.

**Handling:** Do not get on skin or in eyes. Do not breathe dusts. Do not ingest.

\*\*\*\*\*

**SECTION 8 - SPECIAL PROTECTION INFORMATION**

**INTRODUCTORY REMARKS:** These recommendations provide general guidance for handling this product. Because specific work environments and material handling practices vary, safety procedures should be developed for each intended application. While developing safe handling procedures, do not overlook the need to clean equipment and piping systems for maintenance and repairs. Waste resulting from these procedures should be handled in accordance with Section 13: Disposal Considerations.

Assistance with selection, use and maintenance of worker protection equipment is generally available from equipment manufacturers.

**EXPOSURE GUIDELINES:** Exposure limits represent regulated or recommended worker breathing zone concentrations measured by validated sampling and analytical methods, meeting the regulatory requirements. The following limits apply to this material, where, if indicated, S=skin, C=ceiling limit:

**Thiram:**

|       | Notes | TWA                 | STEL |
|-------|-------|---------------------|------|
| ACGIH |       | 1 mg/m <sup>3</sup> |      |
| OSHA  |       | 5 mg/m <sup>3</sup> |      |

**Talc:**

|       | Notes | TWA                 | STEL |
|-------|-------|---------------------|------|
| ACGIH |       | 2 mg/m <sup>3</sup> |      |
| OSHA  |       | 2 mg/m <sup>3</sup> |      |

**SECTION 8 - SPECIAL PROTECTION INFORMATION (continued)**

**ENGINEERING CONTROLS:** Where engineering controls are indicated by use conditions or a potential for excessive exposure exists, the following exposure control techniques may be used to effectively minimize employee exposures.

**RESPIRATORY PROTECTION:** When respirators are required, select NIOSH/MSHA approved equipment based on actual or potential airborne concentrations and in accordance with the appropriate regulatory standards and/or industrial recommendations.

Under normal conditions, in the absence of other airborne contaminants, the following devices should provide protection from this material up to the conditions specified by the appropriate OSHA, WHMIS or ANSI standard(s): Air-purifying (halfmask/full-face) respirator with cartridges/canister approved for use against dusts, mists and fumes, pesticides. Under conditions immediately dangerous to life or health, or emergency conditions with unknown concentrations, use a full-face positive pressure air supplied respirator equipped with an emergency escape air supply unit or use a self-contained breathing apparatus unit.

**EYE/FACE PROTECTION:** Eye and face protection requirements will vary dependent upon work environment conditions and material handling practices. Appropriate ANZI Z87 approved equipment should be selected for the particular use intended for this material.

Eye contact should be prevented through use of chemical safety glasses with side shields or splash-proof goggles. An emergency eye wash must be readily accessible to the work area.

**SKIN PROTECTION:** Skin contact should be minimized through use of gloves and suitable long-sleeved clothing (i.e., shirts and pants). Consideration must be given both to durability as well as permeation resistance.

**WORK PRACTICE CONTROLS:** Personal hygiene is an important work practice exposure control measure and the following general measures should be taken when working with or handling this material:

1. Do not store, use, and/or consume foods, beverages, tobacco products, or cosmetics in areas where this material is stored.
2. Wash hands and face carefully before eating, drinking, using tobacco, applying cosmetics, or using the toilet.
3. Wash exposed skin promptly to remove accidental splashes of contact with this material.

**SECTION 9 - PHYSICAL DATA**

Physical Form: Dust

Color: Natural Off White

Odor: Odorless

pH: N/A

Specific Gravity: Not available

Water solubility: Insoluble

Melting Point Range: Not available

Boiling Point Range: Not available

Vapor Pressure: Not available

Vapor Density: Not available

Molecular Weight: 185.24

\*\*\*\*\*

**SECTION 10 - REACTIVITY DATA**

Stability: Stable.

Polymerization: Will not occur

Conditions To Avoid: None known

Materials/Chemicals To Be Avoided: Strong Oxidizing Agents

Decomposition Products (Thermal): Nitrogen oxides, Sulfur oxides

**SECTION 16 - OTHER INFORMATION**

**NOTICE FROM TECHPAC, LLC.**

The information contained herein is offered only as a guide to the handling of this specific material. Since such information does not relate to use of the material with any other material or in any process, any person using this information must determine for himself its suitability for any particular application. The buyer and user assumes all risk and liability of use, storage and/or handling of this product not in accordance with the terms of the product label.

**ABBREVIATIONS KEY:**

N/A = Not available or applicable

N/E = Not established

TLV=Threshold Limit Value

PEL= Permissible Exposure Limit

CRP= Child Resistant Packaging
